## PERMIT TO OPERATE #08-167

Revocable and Non-Transferable  
Valid from 11-01-2014 until revoked or cancelled  
Permit fees due annually

**PERMIT ISSUED TO:**

Tahoe Asphalt, Inc.  
P.O. Box 8378  
South Lake Tahoe, CA 96158

**EQUIPMENT LOCATION:**

Tahoe Asphalt, Inc.  
1104 Industrial Avenue  
South Lake Tahoe

This Permit is for the equipment described below and as shown on approved plans and specifications. Equipment operation is subject to the conditions listed on the following pages.

### Asphalt Plant

Description	Manufacturer	Model	Rating
Hot Mix Asphalt Batch Plant	Madsen Iron Works	N/A	144 tons/hr average 168 tons/hr maximum
Aggregate Dryer	Madsen Iron Works	8 x 32	60 MMBtu/hr Maximum Temp of 450°F
Liquid Asphalt Storage Tank w/Heater	Hyway	Heater # HYCGO-100	20,000 gal 1.41 MMBtu/hr
Baghouse	Standard Havens	Magnum 8.5	N/A
Blower Fan - Load Out to Baghouse	CENTRI PAC/ Loren Cook	210 CK	6794 CFM Maximum

The annual fees for this permit cover thirty (30) hours of staff time; any additional hours required will be billed at the approved District rate.

This Permit does not authorize emissions of air contaminants in excess of limits allowed by federal, state, or district rules and regulations. Air Quality Management District Rules are available at District Office and [www.arb.ca.gov/drdb/ed/cur.htm](http://www.arb.ca.gov/drdb/ed/cur.htm)

AIR POLLUTION CONTROL OFFICER

12/4/14  
ISSUE DATE

**THANK YOU FOR WORKING WITH US TO IMPROVE AIR QUALITY.**

**PERMIT TO OPERATE CONDITIONS  
TAHOE ASPHALT INC  
PERMIT NUMBER: 08-167**

All applicant proposals are conditions of approval unless mentioned herein.

**GENERAL CONDITIONS**

1. If any permit condition is found invalid, such finding shall not affect the remaining permit conditions.
2. **PERMIT ACCEPTANCE:** Permit acceptance is deemed acceptance of all conditions specified herein and acceptance of the El Dorado County Air Quality Management District (District) Rules and Regulations.
3. **OPERATION:** Equipment operation must be conducted in compliance with all data and specifications submitted with the application under which this permit was issued. (Rule 501, General Permit Requirements section 501.4.E)
4. **PERMIT AMENDMENT:** The District reserves the right to amend this permit, upon annual renewal, in order to ensure facility compliance with District Rules and Regulations. (Rule 501, General Permit Requirements section 501.3.F)
5. **CHANGE OF OWNERSHIP:** The District must be notified prior to change of ownership, building, erecting, altering or replacing any article, machine, equipment or other contrivance, the use of which may cause, eliminate, reduce, or control the issuance of air contaminants. (Rule 501, General Permit Requirements section 501.3)
6. **UPSET/BREAKDOWN:** The District must be notified of any upset or breakdown. (Rule 516, Upset Breakdown Conditions)
7. **ADDITIONAL SOURCES:** The District must be notified prior to the addition of any air pollution source. (Rule 501, General Permit Requirements section 501.3.A)
8. **NUISANCE:** A person shall not discharge from any source quantities of air contaminants or other material which cause injury, detriment, nuisance or annoyance to any considerable number of persons, or to the public, or which endanger the comfort, repose, health or safety of any such persons, or the public, or which cause to have a natural tendency to cause injury or damage to business or property. (Rule 205, Nuisance)
9. **RIGHT OF ENTRY:** To enforce or administer any State or local law, order, regulation, or rule relating to air pollution, the Air Pollution Control Officer and his duly authorized agents shall have the right of entry to any premises on which an air pollution emission source is located for the purpose of inspecting such source, including securing samples of emissions there from or any

**PERMIT TO OPERATE CONDITIONS  
TAHOE ASPHALT INC  
PERMIT NUMBER: 08-167**

records required to be maintained therewith by the District. The Air Pollution Control Officer or his duly authorized agent shall have the right to inspect sampling and monitoring apparatus as deemed necessary. (Rule 509, Authority to Inspect)

10. **PERMIT ON PREMISES:** The owner or operator shall maintain a legible copy of said permit on the premises of the subject equipment. (Rule 501, General Permit Requirements section 501.4.A)

**OPERATING CONDITIONS**

11. **ASPHALT PRODUCTION:** Asphalt production shall not exceed a maximum of 168 tons per hour, 3000 tons per day, or 90,000 tons per year.
12. **AVERAGE HOURLY PRODUCTION LIMIT:** Asphalt production shall not exceed an average hourly limit of 144 tons/hour to be calculated by taking the arithmetic mean, or dividing the daily tonnage processed by the number of hours of operation on that calendar day. The facility may process a maximum of 168 tons/hour for up to four (4) hours per day as long as the average hourly rate for the day is less than or equal to 144 tons.
13. **BAGHOUSE SPARES:** The owner or operator shall maintain, at all times, a 25% supply of baghouse filters and immediately reorder upon usage of this stock. (Rule 501, General Permit Requirements section 501.4.E)
14. **BAGHOUSE MAINTENANCE:** The baghouse and upstream components including the ductwork and drop-out box shall be visually inspected every morning of each day the plant operates. Ineffective, leaking or clogged filters must be replaced prior to operating the baghouse. Leaks found in the baghouses upstream components shall be repaired within five (5) business days.
15. **HOT OIL HEATER:** The hot oil heater operating temperature shall not exceed 450°F.
16. **AGGREGATE DRIER:** The aggregate drier operating temperature shall not exceed 400°F.
17. **CONTAMINATED SOILS:** Use of contaminated soils in the asphalt production process shall be limited to 20 cubic yards per year, or 40 tons per year of petroleum-contaminated soils that result from on-site spills only.
18. **REMEDiated SOILS:** Contaminated soils originating from off-site shall not be processed on the premises.

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT INC**  
**PERMIT NUMBER: 08-167**

**EMISSION LIMITATIONS**

19. **VISIBLE EMISSIONS:** No source of emissions shall be as dark or darker in shade as that designated as No. 1 (20% Opacity) on the Ringelmann Chart for a period or periods aggregating more than three (3) minutes in any one hour. (Rule 202, Visible Emissions section 202.A)
20. **FINE MATERIAL MANAGEMENT:** The emissions of fugitive dust shall not remain visible or exceed 0% opacity in the atmosphere beyond the boundary line of the emission source as determined in accordance with US EPA Method 9. (Rule 223, Fugitive Dust section 223.4.A)
21. **CONCENTRATION LIMIT:** A person shall not cause or allow PM10 levels to exceed 50 micrograms per cubic meter, 24-hour average, when determined by simultaneous sampling, as the difference between upwind and downwind samples collected on high-volume particulate matter samplers or other U.S. EPA approved equivalent methods for PM10 monitoring. (Rule 223, Fugitive Dust section 223.4.B)

**TESTING REQUIREMENTS**

22. **SOURCE TESTING:** Upon the written request of the Air Pollution Control Officer periodic emissions testing shall be conducted to demonstrate compliance with emission limits and District Rules. (Rule 501, General Permit Requirements section 501.3.G)

**RECORD KEEPING AND REPORTING**

23. **BAGHOUSE FILTER REPLACEMENTS:** Filter replacements shall be recorded for each replacement including the date and number of filters replaced. Records of the visual inspections of the baghouse and upstream components including date and findings shall be maintained. Records shall be retained for no less than 5 years, and shall be made available to District personnel upon request. (Rule 501, General Permit Requirements section 501.5.C.1)
24. **PRODUCTION RECORDS:** Production records shall be maintained and retained for no less than 5 years, and shall be made available to District personnel upon request. (Rule 501, General Permit Requirements section 501.5.C.1)

ISSUE DATE

**PERMIT TO OPERATE CONDITIONS**

**TAHOE ASPHALT INC**

**PERMIT NUMBER: 08-167**

All applicant proposals are conditions of approval unless mentioned herein.

**GENERAL CONDITIONS**

1. If any permit condition is found invalid, such finding **SHALL NOT** affect the remaining permit conditions.
2. **PERMIT ACCEPTANCE:** Permit acceptance is deemed acceptance of all conditions specified herein and acceptance of the El Dorado County AQMD (District) Rules and Regulations.
3. **OPERATION:** Equipment operation **MUST** be conducted in compliance with all data and specifications submitted with the application under which this permit was issued (Rule 501.4 E.).
4. **PERMIT AMENDMENT:** The District reserves the right to amend this permit, upon annual renewal, in order to insure facility compliance with District Rules and Regulations (Rule 501.3 F.).
5. **CHANGE OF OWNERSHIP:** The District **MUST** be notified **PRIOR** to change of ownership, building, erecting, altering or replacing any article, machine, equipment or other contrivance, the use of which may cause, eliminate, reduce, or control the issuance of air contaminants (Rule 501.3).
6. **UPSET / BREAKDOWN:** The District **MUST** be notified of any upset or breakdown (Rule 516).
7. **ADDITIONAL SOURCES:** Air Quality Management **MUST** be notified **PRIOR** to addition of any air pollution source. (Rule 501.3.A).
8. **NUISANCE:** A person **SHALL NOT** discharge from any source quantities of air contaminants or other material which cause injury, detriment, nuisance or annoyance to any considerable number of persons, or to the public, or which endanger the comfort, repose, health or safety of any such persons, or the public, or which cause to have a natural tendency to cause injury or damage to business or property (Rule 205).
9. **RIGHT OF ENTRY:** To enforce or administer any State or local law, order, regulation, or rule relating to air pollution, the Air Pollution Control Officer and his duly authorized agents **SHALL** have the right of entry to any premises on which an air pollution emission source is located for the purpose of inspecting such source, including securing samples of emissions there from or any records required to be maintained therewith by the District. The Air Pollution Control Officer or his duly authorized agent **SHALL** have the right to inspect sampling and monitoring apparatus as deemed necessary (Rule 509).
10. **PERMIT ON PREMISES:** The owner or operator **SHALL** maintain a legible copy of said permit on the premises of the subject equipment (Rule 501.4 A.).

PERMIT TO OPERATE CONDITION  
TAHOE ASPHALT INC  
PERMIT NUMBER: 08-167

OPERATING CONDITIONS

11. Asphalt production **SHALL NOT** exceed 100,000 tons per year.
12. The owner or operator **SHALL** maintain, at all times, a 25% supply of baghouse filters and immediately reorder upon usage of this stock (Rule 501.4 E.).
13. Use of petroleum-contaminated soil in the asphalt production process **SHALL NOT** exceed 2,800 tons per year.
14. All contaminated soil **SHALL** be analyzed on a qualitative and quantitative basis for volatile organic compounds. The El Dorado County Environmental Management Department's Hazardous Material/Solid Waste Division and Air Pollution Control District **SHALL** review the chemical analysis **PRIOR** to the material being accepted for storage and processing. County approval of material **SHALL** be transmitted to Tahoe Asphalt in writing (Rule 501.4).
15. Contaminated soil **SHALL** not exceed ten percent of the aggregate used in the asphalt mix (Rule 501.4).
16. Contaminated soil originating from different sites **SHALL** be stored separately and **SHALL NOT** be mixed prior to processing. Storage of contaminated soil **SHALL NOT** exceed 1,000 cubic yards at any given time (Rule 501.4).
17. Chlorinated materials **SHALL** not be remediated at the facility.
18. Materials containing lead **SHALL** not be remediated at the facility.
19. The maximum concentration of benzene in the material to be remediated **SHALL** not exceed 20 ppb (mg/kg) as processed in the dryer.
20. The maximum concentration of toluene in the material to be remediated **SHALL** not exceed 400 ppb (mg/kg) as processed in the dryer.
21. The maximum concentration of xylenes in the material to be remediated **SHALL** not exceed 3000 ppb (mg/kg) as processed in the dryer.
22. The maximum concentration of ethylbenzene in the material to be remediated **SHALL** not exceed 400 ppb (mg/kg) as processed in the dryer.
23. The percentage of the material to be remediated to the total output of the facility will be calculated on a case-by-case basis so that the concentrations of the compounds will not exceed levels specified in this permit.

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT INC**  
**PERMIT NUMBER: 08-167**

24. No soil **SHALL** be received from any project where the total petroleum hydrocarbon (TPH) levels in the soil have been detected at levels greater than 3,000 ppm (mg/kg).

**EMISSION LIMITATIONS**

25. No source of emissions **SHALL** be as dark or darker in shade as that designated as No. 1 (20% Opacity) on the Ringlemann Chart for a period or periods aggregating more than three (3) minutes in any one hour (Rule 202).
26. The facility **SHALL NOT** cause, suffer, allow, or permit any fine material to be handled, transported, or stored without taking precautions which prevent the material from becoming airborne and leaving the property (Rule 223).

**RECORD KEEPING AND REPORTING**

27. Production records **SHALL** be maintained and available to the District upon request (Rules 501.4 and 501.5 C.).
28. A log is to be kept on the receipts of material to be remediated showing the date of receipt, the source of materials, the test documents on the material, the date processed, and the calculation of the percentage of the total output of the facility that the material to be processed has become during processing.
29. All record keeping logs **SHALL** be retained for no less than 5 years and **SHALL** be made available to District personnel upon request.

23. No soil **SHALL** be received from any project where the total petroleum hydrocarbon (TPH) levels in the soil have been detected at levels greater than 3,000 ppm (mg/kg).

**EMISSION LIMITATIONS**

24. No source of emissions **SHALL** be as dark or darker in shade as that designated as No. 1 (20% Opacity) on the Ringlemann Chart for a period or periods aggregating more than three (3) minutes in any one hour (Rule 202).
25. The facility **SHALL NOT** cause, suffer, allow, or permit any fine material to be handled, transported, or stored without taking precautions which prevent the material from becoming airborne and leaving the property (Rule 223).

**RECORD KEEPING AND REPORTING**

26. Production records **SHALL** be maintained and available to the District upon request (Rules 501.4 and 501.5 C.).
27. A log is to be kept on the receipts of material to be remediated showing the date of receipt, the source of materials, the test documents on the material, the date processed, and the calculation of the percentage of the total output of the facility that the material to be processed has become during processing.
28. All record keeping logs **SHALL** be retained for no less than 5 years and **SHALL** be made available to District personnel upon request.
29. The amount of asphalt processed during the previous calendar year **MAY** be submitted to the District in writing no later than **February 1<sup>st</sup>**. This will enable the District to use actual emissions for billing purposes. Failure to send hours of operation by the specified date will subject the facility to maximum permitted emissions billing (Rule 601.3.B).

BY

  
Marcella McTaggart  
AIR POLLUTION CONTROL OFFICER

10-29-2009  
ISSUE DATE

**POST IN A CONSPICUOUS PLACE**

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT, INC.**  
**PERMIT NUMBER: 08-167, EXPIRES: 10-31-2010**

All proposals of the applicant are conditions of approval unless mentioned herein.

**GENERAL CONDITIONS**

1. If any provision of this permit is found invalid, such finding **SHALL NOT** affect the remaining provisions of this permit.
2. Acceptance of this permit is deemed acceptance of all conditions as specified. Failure to comply with any condition of this permit or the Rules and Regulations of the El Dorado County AQMD **SHALL** be grounds for suspension and/or revocation of this permit, either by the Air Pollution Control Officer or the Air Pollution Control District Hearing Board.
3. Operation of the equipment **MUST** be conducted in compliance with all data and specifications submitted with the application under which this permit was issued.
4. The District reserves the right to amend this permit, upon annual renewal, in order to insure compliance of this facility and/or to abate any public nuisance (Rule 501.3.F).
5. Operating staff of this facility **SHALL** be advised of and be familiar with all the conditions contained in this permit.
6. Air Quality Management **MUST** be notified **PRIOR** to Change of Ownership (Rule 501.3.E).
7. Air Quality Management **MUST** be notified **PRIOR** to any alteration or modification of the system and/or equipment (Rule 501.3.A).
8. Air Quality Management **MUST** be notified of upset or breakdown (Rule 516).
9. The facility **SHALL NOT** discharge from any source whatsoever such quantities of air contaminants or other material which cause injury, detriment, nuisance or annoyance to any considerable number of persons, or to the public, or which endanger the comfort, repose, health or safety of any such persons, or the public, or which cause to have a natural tendency to cause injury or damage to business or property (Rule 205).
10. The Air Pollution Control Officer and his duly authorized agents **SHALL** have the right of entry, during normal operating hours or in the case of an emergency, to any premises on which an air pollution emission source is located for the purpose of inspecting such source, including securing samples of emissions there from or any records required to be maintained therewith by the District. The Air Pollution Control Officer or his duly authorized agent **SHALL** have the right to inspect sampling and monitoring apparatus as deemed necessary (Rule 509).
11. The owner or operator **SHALL** post the Permit to Operate in an

PERMIT TO OPERATE CONDITIONS  
TAHOE ASPHALT, INC.  
PERMIT NUMBER: 08-167, EXPIRES: 10-31-2010

accessible place on the premises so as to be clearly visible and readily available at all times on the operating premises (Rule 501.4 A).

**OPERATING CONDITIONS**

12. Asphalt production **SHALL NOT** exceed 100,000 tons per year.
13. The owner or operator **SHALL** maintain, at all times, a 25% supply of baghouse filters and immediately reorder upon usage of this stock (Rule 501.4 E.).
14. Use of petroleum-contaminated soil in the asphalt production process **SHALL NOT** exceed 2,800 tons per year.
15. All contaminated soil **SHALL** be analyzed on a qualitative and quantitative basis for volatile organic compounds. The El Dorado County Environmental Management Department's Hazardous Material/Solid Waste Division and Air Pollution Control District **SHALL** review the chemical analysis **PRIOR** to the material being accepted for storage and processing. County approval of material **SHALL** be transmitted to Tahoe Asphalt in writing (Rule 501.4).
16. Contaminated soil **SHALL** not exceed ten percent of the aggregate used in the asphalt mix (Rule 501.4).
17. Contaminated soil originating from different sites **SHALL** be stored separately and **SHALL NOT** be mixed prior to processing. Storage of contaminated soil **SHALL NOT** exceed 1,000 cubic yards at any given time (Rule 501.4).
18. Chlorinated materials **SHALL** not be remediated at the facility.
19. Materials containing lead **SHALL** not be remediated at the facility.
20. The maximum concentration of benzene in the material to be remediated **SHALL** not exceed 20 ppb (mg/kg) as processed in the dryer.
21. The maximum concentration of toluene in the material to be remediated **SHALL** not exceed 400 ppb (mg/kg) as processed in the dryer.
22. The maximum concentration of xylenes in the material to be remediated **SHALL** not exceed 3000 ppb (mg/kg) as processed in the dryer.
23. The maximum concentration of ethylbenzene in the material to be remediated **SHALL** not exceed 400 ppb (mg/kg) as processed in the dryer.
24. The percentage of the material to be remediated to the total output of the facility will be calculated on a case-by-case basis so that the concentrations of the compounds will not exceed levels specified

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT, INC.**  
**PERMIT NUMBER: 08-167, EXPIRES: 10-31-2010**

in this permit.

25. No soil **SHALL** be received from any project where the total petroleum hydrocarbon (TPH) levels in the soil have been detected at levels greater than 3,000 ppm (mg/kg).

**EMISSION LIMITATIONS**

26. No source of emissions **SHALL** be as dark or darker in shade as that designated as No. 1 (20% Opacity) on the Ringlemann Chart for a period or periods aggregating more than three (3) minutes in any one hour (Rule 202).
27. The facility **SHALL NOT** cause, suffer, allow, or permit any fine material to be handled, transported, or stored without taking precautions which prevent the material from becoming airborne and leaving the property (Rule 223).
28. Fugitive emissions from any source **SHALL NOT** be visible at any point beyond the facility's property lines.

**RECORD KEEPING AND REPORTING**

29. Production records **SHALL** be maintained and available to the District upon request (Rules 501.4 and 501.5 C.).
30. A log book is to be kept on the receipts of material to be remediated showing the date of receipt, the source of materials, the test documents on the material, the date processed, and the calculation of the percentage of the total output of the facility that the material to be processed has become during processing.
31. Records **SHALL** be maintained for any and all maintenance (Rule 501.5 C.).
32. All record keeping logs **SHALL** be retained for no less than 5 years and **SHALL** be made available to District personnel upon request.
33. The amount of asphalt processed during the previous calendar year **SHALL** be submitted to the District in writing no later than **February 1st** each year.

8. Air Quality Management **MUST** be notified of upset or breakdown (Rule 516).
9. The facility **SHALL NOT** discharge from any source whatsoever such quantities of air contaminants or other material which cause injury, detriment, nuisance or annoyance to any considerable number of persons, or to the public, or which endanger the comfort, repose, health or safety of any such persons, or the public, or which cause to have a natural tendency to cause injury or damage to business or property (Rule 205).
10. The Air Pollution Control Officer and his duly authorized agents **SHALL** have the right of entry, during normal operating hours or in the case of an emergency, to any premises on which an air pollution emission source is located for the purpose of inspecting such source, including securing samples of emissions there from or any records required to be maintained therewith by the District. The Air Pollution Control Officer or his duly authorized agent **SHALL** have the right to inspect sampling and monitoring apparatus as deemed necessary (Rule 509).
11. The owner or operator **SHALL** post the Permit to Operate in an

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT, INC.**  
**PERMIT NUMBER: 08-167, EXPIRES: 10-31-07**

accessible place on the premises so as to be clearly visible and readily available at all times on the operating premises (Rule 501.4 A).

**OPERATING CONDITIONS**

12. Asphalt production **SHALL NOT** exceed 100,000 tons per year.
13. The owner or operator **SHALL** maintain, at all times, a 25% supply of baghouse filters and immediately reorder upon usage of this stock (Rule 501.4 E.).
14. Use of petroleum-contaminated soil in the asphalt production process **SHALL NOT** exceed 2,800 tons per year.
15. All contaminated soil **SHALL** be analyzed on a qualitative and quantitative basis for volatile organic compounds. The El Dorado County Environmental Management Department's Hazardous Material/Solid Waste Division and Air Pollution Control District **SHALL** review the chemical analysis **PRIOR** to the material being accepted for storage and processing. County approval of material **SHALL** be transmitted to Tahoe Asphalt in writing (Rule 501.4).
16. Contaminated soil **SHALL** not exceed ten percent of the aggregate used in the asphalt mix (Rule 501.4).
17. Contaminated soil originating from different sites **SHALL** be stored separately and **SHALL NOT** be mixed prior to processing. Storage of contaminated soil **SHALL NOT** exceed 1,000 cubic yards at any given time (Rule 501.4).
18. Chlorinated materials **SHALL** not be remediated at the facility.
19. Materials containing lead **SHALL** not be remediated at the facility.
20. The maximum concentration of benzene in the material to be remediated **SHALL** not exceed 20 ppb (mg/kg) as processed in the dryer.
21. The maximum concentration of toluene in the material to be remediated **SHALL** not exceed 400 ppb (mg/kg) as processed in the dryer.
22. The maximum concentration of xylenes in the material to be remediated **SHALL** not exceed 3000 ppb (mg/kg) as processed in the dryer.
23. The maximum concentration of ethylbenzene in the material to be remediated **SHALL** not exceed 400 ppb (mg/kg) as processed in the dryer.
24. The percentage of the material to be remediated to the total output of the facility will be calculated on a case-by-case basis so that the concentrations of the compounds will not exceed levels specified

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT, INC.**  
**PERMIT NUMBER: 08-167, EXPIRES: 10-31-07**

in this permit.

25. No soil **SHALL** be received from any project where the total petroleum hydrocarbon (TPH) levels in the soil have been detected at levels greater than 3,000 ppm (mg/kg).

**EMISSION LIMITATIONS**

26. No source of emissions **SHALL** be as dark or darker in shade as that designated as No. 1 (20% Opacity) on the Ringlemann Chart for a period or periods aggregating more than three (3) minutes in any one hour (Rule 202).
27. The facility **SHALL NOT** cause, suffer, allow, or permit any fine material to be handled, transported, or stored without taking precautions which prevent the material from becoming airborne and leaving the property (Rule 223).
28. Fugitive emissions from any source **SHALL NOT** be visible at any point beyond the facility's property lines.

**RECORD KEEPING AND REPORTING**

29. Production records **SHALL** be maintained and available to the District upon request (Rules 501.4 and 501.5 C.).
30. A log book is to be kept on the receipts of material to be remediated showing the date of receipt, the source of materials, the test documents on the material, the date processed, and the calculation of the percentage of the total output of the facility that the material to be processed has become during processing.
31. Records **SHALL** be maintained for any and all maintenance (Rule 501.5 C.).
32. All record keeping logs **SHALL** be retained at the facility for no less than 5 years and **SHALL** be made available to District personnel upon request.
33. The amount of asphalt processed during the previous calendar year **SHALL** be submitted to the District in writing no later than **February 1st** each year.

DATE

**POST IN A CONSPICUOUS PLACE**

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT, INC.**  
**PERMIT NUMBER: 08-167, EXPIRES: 10-31-06**

All proposals of the applicant are conditions of approval unless mentioned herein.

**GENERAL CONDITIONS**

1. If any provision of this permit is found invalid, such finding **SHALL NOT** affect the remaining provisions of this permit.
2. Acceptance of this permit is deemed acceptance of all conditions as specified. Failure to comply with any condition of this permit or the Rules and Regulations of the El Dorado County AQMD **SHALL** be grounds for suspension and/or revocation of this permit, either by the Air Pollution Control Officer or the Air Pollution Control District Hearing Board.
3. Operation of the equipment **MUST** be conducted in compliance with all data and specifications submitted with the application under which this permit was issued.
4. The District reserves the right to amend this permit, upon annual renewal, in order to insure compliance of this facility and/or to abate any public nuisance (Rule 501.3.F).
5. Operating staff of this facility **SHALL** be advised of and be familiar with all the conditions contained in this permit.
6. Air Quality Management **MUST** be notified **PRIOR** to Change of Ownership (Rule 501.3.E).
7. Air Quality Management **MUST** be notified **PRIOR** to any alteration or modification of the system and/or equipment (Rule 501.3.A).
8. Air Quality Management **MUST** be notified of upset or breakdown (Rule 516).
9. The facility **SHALL NOT** discharge from any source whatsoever such quantities of air contaminants or other material which cause injury, detriment, nuisance or annoyance to any considerable number of persons, or to the public, or which endanger the comfort, repose, health or safety of any such persons, or the public, or which cause to have a natural tendency to cause injury or damage to business or property (Rule 205).
10. The Air Pollution Control Officer and his duly authorized agents **SHALL** have the right of entry, during normal operating hours or in the case of an emergency, to any premises on which an air pollution emission source is located for the purpose of inspecting such source, including securing samples of emissions there from or any records required to be maintained therewith by the District. The Air Pollution Control Officer or his duly authorized agent **SHALL** have the right to inspect sampling and monitoring apparatus as deemed necessary (Rule 509).
11. The owner or operator **SHALL** post the Permit to Operate in an

PERMIT TO OPERATE CONDITIONS  
TAHOE ASPHALT INC.  
PERMIT NUMBER: 08-167-01, EXPIRES: 10-31-04

All proposals of the applicant are conditions of approval unless mentioned herein.

**GENERAL CONDITIONS**

1. If any provision of this permit is found invalid, such finding **SHALL NOT** affect the remaining provisions of this permit.
2. Acceptance of this permit is deemed acceptance of all conditions as specified. Failure to comply with any condition of this permit or the Rules and Regulations of the El Dorado County AQMD **SHALL** be grounds for suspension and/or revocation of this permit, either by the Air Pollution Control Officer or the Air Pollution Control District Hearing Board.
3. Operation of the equipment **MUST** be conducted in compliance with all data and specifications submitted with the application under which this permit was issued.
4. The District reserves the right to amend this permit, upon annual renewal, in order to insure compliance of this facility and/or to abate any public nuisance. (Rule 501.3 F.)
5. Operating staff of this facility **SHALL** be advised of and be familiar with all the conditions contained in this permit.
6. Air Quality Management **MUST** be notified **PRIOR** to Change of Ownership (Rule 501.3 E.).
7. Air Quality Management **MUST** be notified **PRIOR** to any alteration or modification of the system and/or equipment (Rule 501.3 A.).
8. Air Quality Management **MUST** be notified of upset or breakdown (Rule 516).
9. The facility **SHALL NOT** discharge from any source whatsoever such quantities of air contaminants or other material which cause injury, detriment, nuisance or annoyance to any considerable number of persons, or to the public, or which endanger the comfort, repose, health or safety of any such persons, or the public, or which cause to have a natural tendency to cause injury or damage to business or property (Rule 205).

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT INC.**  
**PERMIT NUMBER: 08-167-01, EXPIRES: 10-31-04**

10. The Air Pollution Control Officer and his duly authorized agents **SHALL** have the right of entry, during normal operating hours or in the case of an emergency, to any premises on which an air pollution emission source is located for the purpose of inspecting such source, including securing samples of emissions there from or any records required to be maintained therewith by the District. The Air Pollution Control Officer or his duly authorized agent shall have the right to inspect sampling and monitoring apparatus as he deems necessary (Rule 509).
11. The owner or operator **SHALL** post the Permit to Operate in an accessible place on the premises so as to be clearly visible and readily available at all times on the operating premises (Rule 501.4 A.).

**OPERATING CONDITIONS**

12. Asphalt production **SHALL NOT** exceed 100,000 tons per year.
13. The owner or operator **SHALL** maintain, at all times, a 25% supply of the baghouse's filters and immediately reorder upon usage of this stock (Rule 501.4 E.).
14. Use of petroleum-contaminated soil in the asphalt production process **SHALL NOT** exceed 2800 tons per year.
15. All contaminated soil **SHALL** be analyzed on a qualitative and quantitative basis for volatile organic compounds. The El Dorado County Environmental Management Department's Hazardous Material/Solid Waste Division and Air Pollution Control District **SHALL** review the chemical analysis **PRIOR** to the material being accepted for storage and processing. County approval of material **SHALL** be transmitted to Tahoe Asphalt in writing (Rule 501.4).
16. Contaminated soil **SHALL** not exceed ten percent of the aggregate used in the asphalt mix (Rule 501.4).
17. Contaminated soil originating from different sites **SHALL** be stored separately and **SHALL NOT** be mixed prior to processing. Storage of contaminated soil **SHALL NOT** exceed 1000 cubic yards at any given time (Rule 501.4).
18. Chlorinated materials **SHALL** not be remediated at the facility.
19. Materials containing lead **SHALL** not be remediated at the facility.
20. The maximum concentration of benzene in the material to be remediated **SHALL** not exceed 20 ppb (mg/kg) as processed in the dryer.

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT INC.**  
**PERMIT NUMBER: 08-167-01, EXPIRES: 10-31-04**

21. The maximum concentration of toluene in the material to be remediated **SHALL** not exceed 400 ppb (mg/kg) as processed in the dryer.
22. The maximum concentration of xylenes in the material to be remediated **SHALL** not exceed 3000 ppb (mg/kg) as processed in the dryer.
23. The maximum concentration of ethylbenzene in the material to be remediated **SHALL** not exceed 400 ppb (mg/kg) as processed in the dryer.
24. The percentage of the material to be remediated to the total output of the facility will be calculated on a case-by-case basis so that the concentrations of the compounds will not exceed levels specified in this permit.
25. No soil **SHALL** be received from any project where the total petroleum hydrocarbon (TPH) levels in the soil have been detected at levels greater than 3,000 ppm (mg/kg).

**EMISSION LIMITATIONS**

26. Emissions **SHALL NOT** be as dark or darker in shade as that designated as No. 1 (20% Opacity) on the Ringlemann Chart for a period or periods aggregating more than three (3) minutes in any one hour (Rule 202).
27. The facility **SHALL NOT** cause, suffer, allow, or permit any fine material to be handled, transported, or stored without taking precautions which prevent the material from becoming airborne and leaving the property (Rule 223).
28. Fugitive emissions from any source **SHALL NOT** be visible at any point beyond the facility's property lines.

**RECORD KEEPING AND REPORTING**

29. The owner or operator **SHALL** record any maintenance done on the permitted equipment on a weekly basis and shall be made readily available for review upon request by the Air Pollution Control Officer (Rule 501.5 C.).
30. Production records **SHALL** be maintained and available to the District upon request (Rules 501.4 and 501.5 C.).
31. A log book is to be kept on the receipts of material to be remediated showing the date of receipt, the source of materials, the test documents on the material, the date processed, and the calculation of the percentage of the total output of the facility that the material to be processed has become during processing.

PERMIT TO OPERATE CONDITIONS

TAHOE ASPHALT INC.

PERMIT NUMBER: 08-167-01, EXPIRES: 10-31-04

32. All record keeping logs **SHALL** be retained at the facility for no less than 5 years and **SHALL** be made available to District personnel upon request.
33. The amount of asphalt produced during the previous calendar year **SHALL** be submitted to the District in writing no later than February 1st each year.

AIR POLLUTION CONTROL OFFICER

SUBJECT: PERMIT CONDITIONS

Enclosed is the approved Permit to Operate (P/O) for your permitted unit. Attached to the P/O is a set of permit conditions. Please take the time to read the entire permit and conditions. These conditions are enforceable under the Health and Safety Code. **Highlighting indicates new or altered conditions.**

If you have any questions or comments regarding the permit conditions, please call the Air Quality Management District at (530) 621-6662

AIR POLLUTION CONTROL OFFICER

**POST IN A CONSPICUOUS PLACE**

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT INC.**  
**PERMIT NUMBER: 08-167-01, EXPIRES: 06-11-01**

All proposals of the applicant are conditions of approval unless mentioned herein.

1. If any provision of this permit is found invalid, such finding **SHALL NOT** affect the remaining provisions of this permit.
2. Acceptance of this permit is deemed acceptance of all conditions as specified. Failure to comply with any condition of this permit or the Rules and Regulations of the El Dorado County APCD **SHALL** be grounds for suspension and/or revocation of this permit, either by the Air Pollution Control Officer or the Air Pollution Control District Hearing Board.
3. Operation of the equipment **MUST** be conducted in compliance with all data and specifications submitted with the application under which this permit was issued.
4. The District reserves the right to amend this permit, upon annual renewal, in order to insure compliance of this facility and/or to abate any public nuisance. (Rule 501.3 F.)
5. Operating staff of this facility **SHALL** be advised of and be familiar with all the conditions contained in this permit.
6. Fugitive emissions from any source **SHALL NOT** be visible at any point beyond the facility's property lines.
7. Air Pollution Control **MUST** be notified **PRIOR** to Change of Ownership (Rule 501.3 E.).
8. Air Pollution Control **MUST** be notified **PRIOR** to any alteration or modification of the system and/or equipment (Rule 501.3 A.).
9. Air Pollution Control **MUST** be notified of upset or breakdown (Rule 516).
10. Records **SHALL** be maintained for any and all maintenance (Rule 501.5 C.).
11. The facility **SHALL NOT** discharge from any source whatsoever such quantities of air contaminants or other material which cause injury, detriment, nuisance or annoyance to any considerable number of persons, or to the public, or which endanger the comfort, repose, health or safety of any such persons, or the public, or which cause to have a natural tendency to cause injury or damage to business or property (Rule 205).

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT INC.**  
**PERMIT NUMBER: 08-167-01, EXPIRES: 06-11-01**

12. The Air Pollution Control Officer and his duly authorized agents **SHALL** have the right of entry, during normal operating hours or in the case of an emergency, to any premises on which an air pollution emission source is located for the purpose of inspecting such source, including securing samples of emissions therefrom or any records required to be maintained therewith by the District. The Air Pollution Control Officer or his duly authorized agent shall have the right to inspect sampling and monitoring apparatus as he deems necessary (Rule 509).
13. The owner or operator **SHALL** post the Permit to Operate. A person who has been granted a permit to operate any article, machine, equipment, or other contrivance described in Section 501.3 B., of this rule shall maintain a legible copy of said permit on the premises of the subject equipment. Other information, analysis, plans or specifications which disclose the nature, extent, quantity, or degree of air contaminants which are or may be discharged from such source shall be readily available for inspection by the Air Pollution Control Officer (Rule 501.4 A).
14. Baghouse emissions **SHALL NOT** be as dark or darker in shade as that designated as No. 1 (20% Opacity) on the Ringlemann Chart for a period or periods aggregating more than three (3) minutes in any one hour (Rule 202).
15. The owner or operator **SHALL** record any maintenance done on the permitted equipment on a weekly basis and shall be made readily available for review upon request by the Air Pollution Control Officer (Rule 501.5 C.).
16. The facility **SHALL NOT** cause, suffer, allow, or permit any fine material to be handled, transported, or stored without taking precautions which prevent the material from becoming airborne and leaving the property (Rule 223).
17. The owner or operator **SHALL** maintain, at all times, a 25% supply of the baghouse's filters and immediately reorder upon usage of this stock (Rule 501.4 E.).
18. Asphalt production **SHALL NOT** exceed 130,000 tons per year. Production records **SHALL** be maintained and available to the District upon request (Rules 501.4 and 501.5 C.).
19. Use of petroleum contaminated soil in the asphalt production process **SHALL NOT** exceed 2800 tons per year. Process records **SHALL** be maintained and available to the District upon request (Rules 503 and 501.4).

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT INC.**  
**PERMIT NUMBER: 08-167-01, EXPIRES: 06-11-01**

20. All contaminated soil **SHALL** be analyzed on a qualitative and quantitative basis for volatile organic compounds. The chemical analysis **SHALL** be reviewed by the El Dorado County Environmental Management Department's Hazardous Material/Solid Waste Division and Air Pollution Control District **PRIOR** to the material being accepted for storage and processing. County approval of material **SHALL** be transmitted to Tahoe Asphalt in writing (Rule 501.4).
21. Contaminated soil **SHALL** not exceed ten percent of the aggregate used in the asphalt mix (Rule 501.4).
22. Contaminated soil originating from different sites **SHALL** be stored separately and **SHALL NOT** be mixed prior to processing. Storage of contaminated soil **SHALL NOT** exceed 1000 cubic yards at any given time (Rule 501.4).
23. No person may cause, suffer, allow, or permit any fine material to be handled, transported, or stored without taking precautions determined by the Air Pollution Control Officer to be necessary (Rule 223).
24. Chlorinated materials **SHALL** not be remediated at the facility.
25. Materials containing lead **SHALL** not be remediated at the facility.
26. The maximum concentration of benzene in the material to be remediated **SHALL** not exceed 20 ppb ( $\mu\text{g/kg}$ ) as processed in the dryer.
27. The maximum concentration of toluene in the material to be remediated **SHALL** not exceed 400 ppb ( $\mu\text{g/kg}$ ) as processed in the dryer.
28. The maximum concentration of xylenes in the material to be remediated **SHALL** not exceed 3000 ppb ( $\mu\text{g/kg}$ ) as processed in the dryer.
29. The maximum concentration of ethylbenzene in the material to be remediated **SHALL** not exceed 400 ppb ( $\mu\text{g/kg}$ ) as processed in the dryer.
30. The percentage of the material to be remediated to the total output of the facility will be calculated on a case by case basis so that the concentrations of the compounds will not exceed those levels as enumerated in conditions #26 through #29. These calculations **SHALL** be kept as part of the log book.

**PERMIT TO OPERATE CONDITIONS**  
**TAHOE ASPHALT INC.**  
**PERMIT NUMBER: 08-167-01, EXPIRES: 06-11-01**

31. A log book is to be kept on the receipts of material to be remediated showing the date of receipt, the source of materials, the test documents on the material, the date processed, and the calculation of the percentage of the total output of the facility that the material to be processed has become during processing. This log book is to be available for inspection at anytime for a period of five years from the date of entry.
32. No soil **SHALL** be received from any project where the total petroleum hydrocarbon (TPH) levels in the soil have been detected at levels greater than 3,000 ppm (mg/kg).
33. A sample of the log **SHALL** be submitted and approved by the District.
34. Contaminated soil projects **SHALL** be approved by the South Lake Tahoe Environmental Management office.

**POST IN A CONSPICUOUS PLACE**

## **PERMIT TO OPERATE CONDITIONS**

**TAHOE ASPHALT INC.**

**PERMIT NUMBER: 08-167-01, EXPIRES: 06-11-97**

All proposals of the applicant are conditions of approval unless mentioned herein.

1. If any provision of this permit is found invalid, such finding **SHALL NOT** affect the remaining provisions of this permit.
2. Acceptance of this permit is deemed acceptance of all conditions as specified. Failure to comply with any condition of this permit or the Rules and Regulations of the El Dorado County APCD **SHALL** be grounds for suspension and/or revocation of this permit, either by the Air Pollution Control Officer or the Air Pollution Control District Hearing Board.
3. Operation of the equipment **MUST** be conducted in compliance with all data and specifications submitted with the application under which this permit was issued.
4. The District reserves the right to amend this permit, upon annual renewal, in order to insure compliance of this facility and/or to abate any public nuisance. (Rule 501.3 F.)
5. Operating staff of this facility **SHALL** be advised of and be familiar with all the conditions contained in this permit.
6. Fugitive emissions from any source **SHALL NOT** be visible at any point beyond the facility's property lines.
7. Air Pollution Control **MUST** be notified **PRIOR** to Change of Ownership (Rule 501.3 E.).
8. Air Pollution Control **MUST** be notified **PRIOR** to any alteration or modification of the system and/or equipment (Rule 501.3 A.).
9. Air Pollution Control **MUST** be notified of upset or breakdown (Rule 516).
10. Records **SHALL** be maintained for any and all maintenance (Rule 501.5 C.).
11. The facility **SHALL NOT** discharge from any source whatsoever such quantities of air contaminants or other material which cause injury, detriment, nuisance or annoyance to any considerable number of persons, or to the public, or which endanger the comfort, repose, health or safety of any such persons, or the public, or which cause to have a natural tendency to cause injury or damage to business or property (Rule 205).

**PERMIT TO OPERATE CONDITIONS (CONTINUED)**

**TAHOE ASPHALT INC.**

**PERMIT NUMBER: 08-167-01, EXPIRES: 06-11-97**

12. The Air Pollution Control Officer and his duly authorized agents **SHALL** have the right of entry, during normal operating hours or in the case of an emergency, to any premises on which an air pollution emission source is located for the purpose of inspecting such source, including securing samples of emissions therefrom or any records required to be maintained therewith by the District. The Air Pollution Control Officer or his duly authorized agent shall have the right to inspect sampling and monitoring apparatus as he deems necessary (Rule 509).
13. The owner or operator **SHALL** post the Permit to Operate in an accessible place on the premises so as to be clearly visible and readily available at all times on the operating premises (Rule 501.4 A.).
14. Baghouse emissions **SHALL NOT** be as dark or darker in shade as that designated as No. 1 (20% Opacity) on the Ringlemann Chart for a period or periods aggregating more than three (3)
15. The owner or operator **SHALL** record any maintenance done on the permitted equipment on a weekly basis and shall be made readily available for review upon request by the Air Pollution Control Officer (Rule 501.5 C.).
16. The facility **SHALL NOT** cause, suffer, allow, or permit any fine material to be handled, transported, or stored without taking precautions which prevent the material from becoming airborne and leaving the property (Rule 223).
17. The owner or operator **SHALL** maintain, at all times, a 25% supply of the baghouse's filters and immediately reorder upon usage of this stock (Rule 501.4 E.)
18. Asphalt production **SHALL NOT** exceed 130,000 tons per year. Production records **SHALL** be maintained and available to the District upon request (Rules 501.4 and 501.5 C.).
19. Use of petroleum contaminated soil in the asphalt production process **SHALL NOT** exceed 2800 tons per year. Process records **SHALL** be maintained and available to the District upon request (Rules 503 and 501.4).
20. All contaminated soil **SHALL** be analyzed on a qualitative and quantitative basis for volatile organic compounds. The chemical analysis **SHALL** be reviewed by the El Dorado County Environmental Management Department's Hazardous Material/Solid Waste Division and Air Pollution Control District **PRIOR** to the material being accepted for storage and processing. County approval of material **SHALL** be transmitted to Tahoe Asphalt in writing (Rule 501.4).

**PERM.. TO OPERATE CONDITIONS (CONTINUED)**

**TAHOE ASPHALT INC.**

**PERMIT NUMBER: 08-167-01, EXPIRES: 06-11-97**

21. Processing of contaminated soil **SHALL NOT** exceed 10% by weight in mixing with non-contaminated material of the standard mixing batch (Rule 501.4).
22. Contaminated soil originating from different sites **SHALL** be stored separately and **SHALL NOT** be mixed prior to processing. Storage of contaminated soil **SHALL NOT** exceed 1000 cubic yards at any given time (Rule 501.4).
23. A person who has been granted a permit to operate any article, machine, equipment, or other contrivance described in Section 501.3 B., of this rule shall maintain a legible copy of said permit on the premises of the subject equipment. Other information, analysis, plans or specifications which disclose the nature, extent, quantity, or degree of air contaminants which are or may be discharged from such source shall be readily available for inspection by the Air Pollution Control Officer (Rule 501.4 A).
24. No person may cause, suffer, allow, or permit any fine material to be handled, transported, or stored without taking precautions determined by the Air Pollution Control Officer to be necessary (Rule 223).

Gentlemen:

Attached you will find your annual "Permit to Operate" issued by the El Dorado County Air Pollution Control District, in accordance with the El Dorado County Rules and Regulations.

A person who has been granted under Rule 501, a Permit to Operate any equipment described in Rule 501, shall firmly affix such Permit to Operate, an approved facsimile, or other approved identification being the permit number upon the article, machine, equipment, or other contrivance in such manner as to be clearly visible and accessible. In the event that the equipment is so constructed or operated that the Permit to Operate cannot be so placed, the Permit to Operate shall be mounted so as to be clearly visible in an accessible place on the premises or maintained readily available at all times on the operating premises.

Thank you for your prompt response and cooperation.

Very truly yours,

*Vermon C. Peterson*
